Space Policy

Index to Volume 3

No 1 February 1987, No 2 May 1987, No 3 August 1987, No 4 November 1987

Articles – titles

Cancelling the US solar–polar spacecraft, Joan Johnson-Freese, 3.1, 24–37

Effects of the long-term ESA programme on employment, Eurospace, 3.1, 52–64

Gathering news from space, Richard DalBello and Ray A. Williamson, 3.4, 298–306

India's space policy: A developing country in the 'Space Club', Stephan von Welck, 3.4, 326–334

Priorities in space for the USA, Alex Roland, 3.2, 104–111

Some consequences of the commercialization of satellite remote sensing, Caesar Voute, 3.4, 307–312

The astronaut and the robot, André Lebeau, 3.3, 207–220

The Challenger *accident and public opinion*, Jon D. Miller, 3.2, 122–140

The Columbus Programme: European steps towards the considered development of near-Earth space, Philip Chandler, 3.4, 335–339

The crisis in space and Earth sciences in the USA, NASA Space and Earth Sciences Committee, 3.1, 38–51

The export of space technology, Stephan von Welck, 3.3, 221–231

The future of Earth observations in the USA, John H. McElroy, 3.4, 313–325

The private solution to the space transportation crisis, James Bennett and Phillip Salin, 3.3, 181–206

The progress of astronautics in China, Liu Ji-Yuan and Min Gui-rong, 3.2, 141–147

The USA and international competition in space transportation, Ray A. Williamson, 3.2, 115–121

The USSR's prudent space policy, Alain Dupas, 3.3, 239–243

Worldwide direct audio broadcasting from space, T.F. Rogers, 3.3, 232–238

Articles – authors

Bennett, James and Salin, Phillip, *The private solution to the space transportation crisis*, 3.3, 181–206

Chandler, Philip, *The Columbus Programme: European steps towards the considered development of near-Earth space*, 3.4, 335–339

DalBello, Richard and Williamson, Ray A., *Gathering news from space*, 3.4, 298–306

Dupas, Alain, *The USSR's prudent space policy*, 3.3, 239–243

Gui-rong, Min, *see* Ji-Yuan, Liu

Eurospace, *Effects of the long-term ESA programme on employment*, 3.1, 52–64

Ji-Yuan, Liu and Gui-rong, Min, *The progress of astronautics in China*, 3.2, 141–147

Johnson-Freese, Joan, *Cancelling the US solar-polar spacecraft*, 3.1, 24–37

Lebeau, André, *The astronaut and the robot*, 3.3, 207–220

McElroy, John H., *The future of Earth observations in the USA*, 3.4, 313–325

Miller, Jon D., *The* Challenger *accident and public opinion* 3.2, 122–140

NASA Space and Earth Sciences Committee, *The crisis in space and Earth sciences in the USA* 3.1, 38–51

Rogers, T.F., *Worldwide direct audio broadcasting from space* 3.3, 232–238

Roland, Alex, *Priorities in space for the USA*, 3.2, 104–111

Salin, Phillip, *see* Bennett, James

von Welck, Stephan, F., *India's space policy: A developing country in the 'Space Club'*, 3.4, 326–334

von Welck, Stephan. F., *The export of space technology*, 3.3, 221–231

Voute, Caesar, *Some consequences of the commercialization of satellite remote sensing*, 3.4, 307–312

Williamson, Ray A., *The USA and international competition in space transportation* 3.2, 115–121

Williamson, Ray A., *see* DalBello, Richard

Reports/Viewpoints

A language for arms control in space, Julie Dahlitz, 3.1, 17–23

Battelle estimate of launch service demand, R.J. Conlon and J. Day, 3.3, 253–259

Britain's future in space, Sir Raymond Lygo, 3.4, 280–283

Commercial space development, Daniel J. Semick, 3.4, 343–344

Euroconsult survey of the space industry, Euroconsult, 3.3, 244–253

Flunking on space station cooperation? Wulf von Kries 3.1, 10–12

International cooperation in space, George Brown, 3.3, 166–174

International outer space law, Carl Q. Christol, 3.1, 65–71

Italian industry's approach to space, Andrea Marri, 3.2, 148

Launch vehicles to low-Earth orbit, Harry O. Ruppe, 3.3, 175–178

Leadership in space transportation, Joel S. Greenberg, 3.3, 179–180

Principles for pioneers, George Field and Frank White, 3.1, 71–75

Rebuilding US launch capabilities, Henry R. Hertzfeld, 3.2, 100–103

Remote Sensing and the First Amendment, Mark E. Brender, 3.4, 293–297

Satellite broadcasting in Europe: the politics of standardization, Gijs de Vries, 3.4, 288–292

Satellite technology and the control of environmental diseases Petar Jovanovic 3.2, 149–150

Setting space transportation policy for the 1990s, summary report of the US Congress's Congressional Budget Office, October 1986, 3.1, 13–16

Space shuttle flight rates and utilization, Panel report prepared for the committee on NASA Scientific and Technological Program Reviews; the Commission on Engineering and Technical Systems; and the National Research Council, 3.1, 5–9

Butterworth Scientific Ltd, PO Box 63, Westbury House, Bury Street, Guildford, Surrey GU2 5BH, UK.

Sputnik fever – again?! Marcia S. Smith, 3.4, 284–287

The development of materials processing in space, Allan Spitzer, 3.4, 340–343

The European space programme, Reimar Lust, 3.1, 2–4

The military in space – a historical relationship, Robert T. Herres, 3.2, 92–95

The USA should begin to deploy a strategic defence system, Caspar W. Weinberger, 3.2, 96–99

Thoughts on Europe's future in space, Harry O. Ruppe, 3.2, 89–91

UK space policy – a problem of culture, David Green, 3.4, 277–279

Book reviews (author, title, reviewer)

Chalfont, Alun, *Star Wars, Suicide or Survival*, Darryl Roberts, 3.3, 260

Hurwitz, Bruce A., *The Legality of Space Militarization*, Carl Q. Christol, 3.4, 345–346

Hudson, Heather (ed), *New Directions in Satellite Communications*, Larry Martinez, 3.2, 150–152

Johnson, Nicholas L., *The Soviet Year in Space 1986*, Peter Berlin, 3.4, 344

Lawrence, Robert, M., *Strategic Defense Initiative: Bibliography and Research Guide*, Elizabeth Young, 3.3, 261–262

Mark Hans, *The Space Station: A Personal Journey*, John M. Logsdon, 3.4, 346–347

Satellite Systems Engineering, *Transponder Supply and Demand Forecast*, Joseph Pelton, 3.4, 347

Tirman, John (ed), *Empty Promise: The Growing Case Against Star Wars*, Ian Bellany, 3.3, 262

Letters to the Editor/Rejoinder

Priorities and policy analysis – a response to Alex Roland, John M. Logsdon, 3.2, 112–113

Rejoinder, Alex Roland, 3.2, 114

Editorials

Reconstituting the US space programme, John M. Logsdon, 3.2, 86–88

New space priorities in the USSR, Alain Dupas, 3.4, 274–276
